Entry into Further Gold Price Protection Measures

Acacia announces that it has bought additional put options covering 120,000 ounces of gold at a strike price of US\$1,320 per ounce for a cost of US\$2.0 million. The options will expire in equal instalments of 30,000 ounces per month between March and June. These options, in addition to those bought in September 2017 at a strike price of US\$1,300 per ounce, provide a minimum price for the majority of the Group’s expected production for the first half of 2018 above our budgeted gold price of US\$1,200 per ounce, with full upside exposure should the gold price continue to trade above the respective strike prices.
